APPENDIX I.

[Vide answer to starred question No. 42 asked by Sri S. B. Adityan at the meeting of the Legislative Council held on 30th July 1952, at page 371 supra.]

(a) & (b)—The Government have sanctioned the execution of the following works prop sed by the Corporation to meet the emergency :—

A. Immediate measures—

	Cost. RS.
(a) Deepening of the channel in the Red Hills lake leading to M.W. No. 11.	5,000
(b) Conveying and installing 2 Nos. 12" oil engine pump-sets—one at Jones Tower and another at manhole No. 11 with the requisite staff.	4,500
(c) Deepening of the existing public wells wherever the sub-soil water has gone down.	6,000
(d) Chlorination of private wells	10,000
(e) Maintenance of mobile water-tank units	12,500
(f) Continuance of the existing engines and electrical pumping sets fixed to private and public wells.	10,000
(g) Installation of six oil engines or electric pumpsets to selected wells.	15,000
(h) Erection of small overhead tanks of 800-gallon capacity with the necessary pipe connexions for the above six pumping sets.	6,000
(i) Installation of 12 more steel tanks for supplying water through lorries.	12,000
(j) Maintenance of water-tank lorries without any break-down.	25,000
(k) Spare parts for oil engines, pumping sets and cost of employment of maistris to keep record of good private wells.	5,000
Total ..	1,11,000

B. Other measures—

	Non-recurring. RS.	Recurring. RS.
(1) Pumping water from the bed of the Courtelliyar into the upper supply channel.	22,000	1,500
(2) Cutting ditches into the bed of the Red Hills lake and connecting of pools of water to Jones Tower or 11th manhole.	10,000	..

30th July 1952]

B. Other measures—*cont.*

	Non-recurring. RS.	Recurring. RS.
(3) Installation of pumping sets at Jones Tower and leading channel at 11th manhole.	..	2,000
(4) Staff for taking action against unauthorized fixtures.	..	8,500
(5) Pumping water from temple and other public tanks and de-silting.	30,000	..
(6) Digging ponds along the beach ..	12,000	..
(7) Extension of water-supply from private and public wells already fitted with pumping sets.	20,000	..
(8) Installation of a 5" pumping set at Seven Wells connecting to distribution system introducing valves wherever necessary.	8,000	..
(9) Laying of 8" C.I. pipes from well in Urur to Gandhinagar for 5,500′ and installing a pumpset 4″.	50,000	400
(10) Employment of well-cleaning gangs ..	..	7,000
(11) Additional pumping sets at wells or tanks, 12 Nos.	30,000	1,800
(12) Continuing chlorination of private wells as at present.	..	5,000
(13) More steel or masonry tanks for supply of water through lorries.	10,000	..
(14) Purchase of two more lorries fitted with water tanks.	50,000	1,500
(15) Installing of 12″ diameter deep bore-wells with pumps boring to a depth of 300 feet.	60,000	1,500
	3,02,000 or 3,00,000 roundly.	29,200 or 30,000 roundly.

The Government also permitted the Corporation—

(1) to tap and pump sub-soil water from the bed of the Courteliyar river into the upper supply channel as an emergency measure to tide over the water scarcity ;

(2) to pump the available water below the sill level of the Cholavaram tank into the Red Hills lake through the lower supply channel ; and

(3) to sink five wells on the foreshore of the beach.

[30th July 1952

The Government have also sanctioned the execution of the following further works to meet the emergency of water-supply position in the Madras City:—

	RS.
(1) 150 Nos. additional tube wells all over the City at Rs. 170 each.	25,500
(2) 30 masonry wells along the conduit	2,22,000
(3) 20 Nos. 8′ and 6′ diameter wells in the City	28,000
(4) 20 Nos. 3″ bore-wells with pumpsets and filter points in Corporation schools.	25,000
(5) 50 Nos. pumpsets for wells in items (2) and (3) ..	75,000
(6) 1 No. motor van for chlorinating well-water with bleach liquor.	14,000
(7) Unforeseen works.	10,500
Total ..	4,00,000

The Government have agreed to give a grant of Rs. 2,91,250 and a loan of Rs. 4,12,750 to the Corporation towards the expenditure on the above scheme.

Almost all the works included in the emergency measures have been executed before the advent of recent rains except the sinking of some tube-wells and the de-silting of 19 temple tanks.

(c) & (d)—

(1) Supply from the river Krishna at Vijayavada.

(2) Supply from the river Tungabhadra via Kurnool-Cuddapah canal, Pennar river and conveying through pipe or channel to Madras City.

(3) Supply from river Cauvery at Jeddarpalayam anicut near Erode.

(4) Supply of Cauvery water from Viranam eri in South Arcot fed by the Cauvery-Coleroon at lower anicut.

(5) Supply from water available in underground lignite beds in South Arcot district.

(6) Supply from river Palar in Chingleput district.

APPENDIX II.
